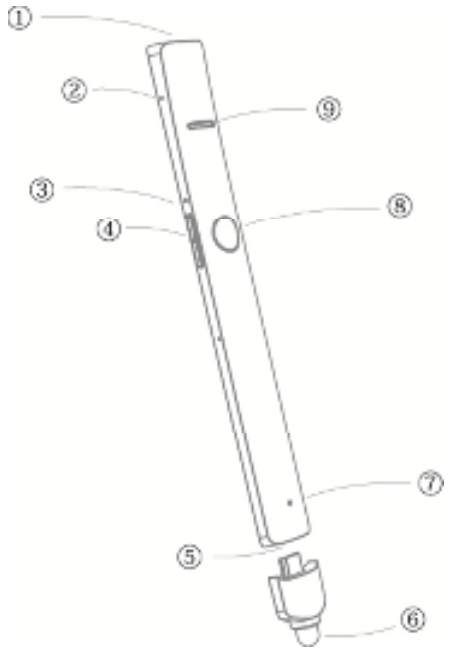
1. Product Overview

Introduction

The bluPen.2 is a multifunction gadget built for touch-screen smartphones and tablets. Bluetooth™ pairing with the device, the bluPen.2 serves primarily as a call handset using its ultra-sensitive mic and in-built stereo mini-speaker. Enhances the audio with its included earphones and specially designed 5th Gen CVC® CSR chipset for superb noise suppression and echo cancellation for a crystal clear sound quality. bluPen.2 also carries a vibration mechanism for a quiet incoming call notification. Its secondary feature allows the device to be a conductive stylus pen by replacing its tip and use it for any touch-screen devices for a more precise swiping, drawing or even writing. The bluPen.2 is simply a complete solution for touch-sensitive mobile and tablet devices.

2. Appearance and Interface Description



1 3.5mm audio jack
2 Microphone
3 Status indicator
4 Volume +/-
5 Charging jack
6 Capacitive stylus
7 Microphone
